Western WA Treaty Rights at Risk six issue briefs for EPA 1 31 17 Isedits.docx

Peter,

Linda S. had some edits to your briefing paper. See attached. I concur with her edits.

Thanks

**Importance:** High

Hi Michael;

So, it's a bit challenging to receive this (as it was written) with such little time to review/edit. These write-ups really would benefit from our program's input much sooner since we are doing all the work on these issues (speaking about the cumulative impacts to marine/nearshore and the NWP's and shellfish aquaculture pieces).

I would like to work with you and Heather to identify a more proactive way/better approach for our programs' coordination w/ Puget Sound team on the TRAR briefing papers, etc. so we aren't always trying to fix/clean things up at last minute. Sorry to be so blunt, but it is a bit frustrating.

That said, I am truly grateful for the opportunity to provide my input to more accurately reflect the work that's been done and where things are on the cumulative impacts front w/ regard to the NWP's and Regional Conditions.

Linda and Heather,

Can you both take a look and provide any edits by noon tomorrow.

Thanks

Michael, can you take a quick look at this brief that we will use with Michelle and Dan tomorrow? Two issues for you are NW48 and HTL. Items in italics are for Michelle and Dan and will be deleted before sending this to the other TRAR Principals (USACE, NOAA, NRCS)

before next weeks meeting.

I have added you and David to the pre brief scheduled for tomorrow afternoon. I can hold these two issues for later in the briefing if you will be late.

Thanks,

peter
